LOCAL JEWELRY ARTIST WINS BEST OF SHOW

Mount Clemens, Mich., June 7, 2008 — Judges from the 2008 Marine City Juried Arts & Crafts Fair voted Nancy Feldbush, a Macomb County resident, Best of Show for her unique Michigan-inspired jewelry. The arts and crafts fair, which was held this past Memorial Day weekend, is part of the Marine City, Michigan, Maritime Days festival. Feldbush's creations, which are marketed under the name Moose Run Accessories, blend nature and art and are assembled from "found" items, making them all one-of-a-kind originals.

"Michigan offers so many natural charms," said Feldbush. "And I want to showcase that charm through my jewelry."

Feldbush uses an assortment of natural tidbits, such as porcupine quills, shells, beach glass, pinecones, driftwood, and petoskey stones — all found within Michigan — to create her unique treasures, which include the best-selling Memories of Michigan sets. And, since the found elements are formed by nature, no two pieces of Feldbush's jewelry will ever be exactly alike.

"Natural materials are both a challenge and a joy to work with," she explained. "It can take months of searching to find two items similar enough to use for earrings."

Feldbush sells her Michigan jewelry at various art and craft shows throughout the state and through home shows. More information and photos of Feldbush's pieces can be found at www.moose-run.com under the Accessories tab.
